

## REPORT TO PLANNING COMMISSION

**To:** Honorable Chair and Members of the Planning Commission

**From:** Damaris Abraham, Community Development Director

**Prepared by:** Carlos Serna, Associate Planner

**Date:** August 20, 2024

**Subject:** Planning Application No. 2023-17 (Lakefront Plaza Revitalization) – Proposal for Exterior Building Façade and Related Site Improvements with a Request for Parking Reduction for an Existing Commercial Center on a 1.99-acre Site Located at 31681 and 31701 Riverside Drive

**Applicant:** Richard Leigh, Fluid and Fare

### **Recommendation**

1. Find that the proposed project is exempt from the California Environmental Quality Act (CEQA) pursuant to CEQA Guidelines Section 15301 (Class 1 Existing Facilities); and
2. Adopt A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF LAKE ELSINORE, CALIFORNIA, APPROVING PLANNING APPLICATION NO. 2023-17 (COMMERCIAL DESIGN REVIEW NO. 2023-05) FOR EXTERIOR BUILDING FAÇADE AND RELATED SITE IMPROVEMENTS WITH A PARKING REDUCTION FOR THE EXISTING LAKEFRONT PLAZA COMMERCIAL CENTER LOCATED AT 31681 AND 31701 RIVERSIDE DRIVE (APNS: 379-381-053 AND 379-381-054).

### **Project Location**

The project site is an existing 1.99-acre commercial center located along Riverside Drive between Joy Street and Lincoln Street at 31681 and 31701 Riverside Drive. The project site encompasses Assessor Parcel Numbers (APNs) 379-381-053 and 379-381-054.

The commercial retail plaza was originally entitled in the mid-to-late 1980s and is now known as the Lakefront Plaza. The site is fully developed with an approximately 14,000-square-foot two-story commercial building and 12,000-square-foot one-story commercial building along with existing parking spaces and landscaping. Existing businesses at Lakefront Plaza include a mixture of religious institutions, commercial retail shops, and two restaurants.

**Environmental Setting**

	<b>EXISTING LAND USE</b>	<b>GENERAL PLAN</b>	<b>ZONING</b>
Project Site	Commercial	General Commercial (GC)	General Commercial (C-2)
North	Residential	Medium Density Residential (MDR)	Medium Density Residential (R-2)
South	Commercial	Commercial Mixed Use (CMU)	Commercial Mixed Use (CMU)
East	Commercial	General Commercial (GC)	General Commercial (C-2)
West	Commercial	General Commercial (GC)	General Commercial (C-2)

*Table 1: Environmental Setting*

**Project Description**

Planning Application No. 2023-17 is a request for a Commercial Design Review (CDR No. 2023-05) to remodel the existing exterior façade and interior renovations of the commercial buildings including the following proposed improvements:

- Demolish both structure’s existing storefront, roof membrane, and interior/exterior walls and doors to construct a new storefront façade with interior renovations including partition walls and restrooms;
- Demolish a small portion of the existing two-story building to reduce the building size from 13,837 square feet (sq. ft.) to 13,435 sq. ft.;
- Demolish the existing exterior stairwell attached to the two-story building and construct a new interior stairwell with an accessible chair lift;
- Construct a new 833-square-foot patio with a second story deck for the existing two-story building; and
- New commercial center identification signage, individual unit signage, and site improvements to the parking and landscaping.

The applicant is also requesting a reduction in the required number of parking spaces associated with the proposed remodeling and change in uses (refer to Attachment 5 for the Parking Study).

The proposed improvements are intended to accommodate a mix of new and existing retail, office, and restaurant tenant spaces. Notably, two new restaurant spaces will be added including a second story modern restaurant with a view of Lake Elsinore. The applicant has experience in opening and operating successful restaurants in neighboring cities including Temecula (1909 and Toast). The applicant is seeking to revitalize the existing center and bring new restaurant concepts to serve the Lake Elsinore community including visitors.

## Analysis

The following analysis below provides a discussion of the proposed project's consistency with the commercial development standards and requirements pursuant to the Lake Elsinore Municipal Code (LEMC) as well as the General Plan. In addition, the Design Review Committee, including Staff from Planning, Building and Safety, Fire, and Engineering Departments and the Elsinore Valley Municipal Water District, has reviewed the project and have included recommended conditions of approval to ensure compliance with adopted plans, policies, and regulations.

### General Plan Consistency

The subject site has a General Plan Land Use designation of General Commercial (GC) and is located in the Lakeview District. The GC Land Use designation provides for retail, services, restaurants, professional and administrative offices, hotels and motels, mixed-use projects, public and quasi-public uses, and similar and compatible uses with a maximum 0.40 floor area ratio (FAR). The project is proposing to modify an existing multi-tenant commercial retail building with an existing 0.26 FAR. The proposed project includes changes in uses that will continue to be consistent with the intent of the GC Land Use designation. The proposed project improvements do not involve an expansion in square footage or FAR. Therefore, the project is consistent with the General Plan.

### Municipal Code Consistency

The current zoning designation of the subject site is General Commercial (C-2). According to LEMC Section 17.124.020, all permitted uses of the Commercial Office (C-O) and the Neighborhood Commercial (C-1) district as contained within LEMC Sections 17.116.020 and 17.120.020 are also permitted uses in the C-2 zone. Restaurants and retail stores are considered permitted uses in the C-O and C-1 zones and as such, also permitted in the C-2 zone. The proposed remodel and exterior site improvements comply with the applicable development standards for the C-2 zone including building setbacks, height, and landscaping.

The proposed parking reduction request is consistent with the findings outlined in LEMC Section 17.148.030.D.1 and is discussed in detail in the Parking Analysis Section below. In addition, the project includes conditions of approval to address any future parking concerns.

### Architectural Elevations

The architectural design of the proposed building complies with the Nonresidential Development Standards (Chapter 17.112) of the LEMC. The commercial building exteriors would be modernized through a more rectangular form with asymmetrical walls and varying rooflines. The structure also employs recessed and pop-out walls to add additional architectural articulation and stone veneer will be employed throughout the structure to avoid long expanses of untreated open walls. The updated exterior consists of stucco in cool shades of white and gray with blue accents. Furthermore, the proposed landscaping improvements complement the proposed building design, provide shade and break-up expanses of pavement.

Parking Analysis

LEMC Section 17.148.030.A requires one (1) space for each 250 sq. ft. of gross floor area for commercial uses in the C-2 zoning district. For restaurant uses, LEMC Section 17.148.030.E.13 requires one (1) space for each 45 sq. ft. of customer area plus one (1) space for each 200 sq. ft. of non-customer area. Notably, the applicant indicated that the proposed patio and second story deck will not be used as a dedicated dining area resulting in expanded customer capacity. Accordingly, it was determined that such area should not be counted towards the customer area for purposes of calculating the parking requirement for the customer area. The proposed project would require 179 parking spaces based on the LEMC (refer to Parking Summary Table below).

SUITE	TENANT NAME	LAND USE	LEMC REQUIRED PARKING	REQUIRED PARKING STALLS
<b>Building One</b>				
<b>A</b>	Commercial Uses (TBD)	Retail	1 Space Per 250 sq. ft.	11.9
<b>B</b>	AP Beauty Supplies	Retail	1 Space Per 250 sq. ft.	4.8
<b>C/D</b>	74 Cantina Mexican Cuisine	Restaurant	1 space for each 45 square feet of customer area, plus 1 space for each 200 square feet of non-customer area. Gross floor area includes 40% customer area and 60% non-customer area.	52.5
<b>E/F</b>	All-Pro Engine and Mower Supply	Retail	1 Space Per 250 sq. ft.	82.6
<b>Building Two</b>				
<b>G/H</b>	Restaurant (TBD)	Restaurant	1 space for each 45 square feet of customer area, plus 1 space for each 200 square feet of non-customer area. Gross floor area includes 40% customer area and 60% non-customer area.	22.9
<b>I/J</b>	Aero Delivery, Inc.	Retail	1 Space Per 250 sq. ft.	7.1
<b>K</b>	Dreamcatchers Photography	Retail	1 Space Per 250 sq. ft.	3.0
<b>L</b>	Commercial (TBD)	Retail	1 Space Per 250 sq. ft.	2.9
<b>M/N</b>	VIP Best Insurance Agency	Retail	1 Space Per 250 sq. ft.	10.7
<b>O</b>	Pizza Bowl	Restaurant	1 space for each 45 square feet of customer area, plus 1 space for each 200 square feet of non-customer area. Gross floor area includes 40% customer area and 60% non-customer area.	21.5
<b>P</b>	Restaurant TBD	Restaurant	1 space for each 45 square feet of customer area, plus 1 space for each 200 square feet of non-customer area. Gross floor area includes 40% customer area and 60% non-customer area.	22.8
<b>Q</b>	Commercial (TBD)	Office	1 Space Per 250 sq. ft.	5.2
<b>TOTAL PARKING REQUIRED PER LEMC<sup>1</sup></b>			<b>179</b>	
<b>TOTAL PARKING PROPOSED PER PARKING STUDY</b>			<b>135</b>	

Table 2: Parking Summary

<sup>1</sup> Pursuant to LEMC Section 17.148.020.C, the number of parking spaces required resulting in a fractional number shall be rounded to the next higher whole number.

The project proposes to provide 135 parking spaces including six (6) accessible parking spaces. As such, the applicant is requesting to reduce their required parking by 44 spaces. Per LEMC Section 17.148.030.D, a request to reduce the number of required parking spaces may be made to the Planning Commission concurrent with the design review of a commercial or industrial project or with a proposed change of use within a commercial or industrial building when the applicant determines that the actual number of needed parking spaces is less than that required by the code.

Based on the applicant's parking study completed by K2 Traffic Engineering, Inc. (dated May 23, 2024) for the proposed project, the following findings are in accordance with LEMC Section 17.148.030.D for the requested parking reduction:

1. A parking study prepared by a traffic and parking consultant was submitted for this project and includes a shared parking analysis based on the mix of current and proposed land uses within the existing commercial plaza;
2. The shared parking analysis includes a Time-of-Day Factor Model for the proposed project based on the mix of land uses and square footages as identified on the site plan. This analysis is based on the principle that different land uses have different peak periods of parking demand throughout a given day (e.g., restaurants have peak demands during typical lunch and dinner times). Given the proposed mix of uses and their varying peak parking demand times, the shared parking analysis determined that they may be able to share a single pool of parking;
3. Furthermore, based on the results of the shared parking analysis, the proposed parking supply of 135 parking spaces including six (6) accessible spaces is projected to adequately accommodate peak parking demand at 12:00 P.M. on weekdays and 2:00 P.M. on weekends at the project site with a surplus of three (3) parking spaces;
4. Reduced parking will not affect the health, safety and welfare of the public because the parking study demonstrated a sufficient number of parking spaces would be provided. Furthermore, the parking lot is designed to allow efficient on-site circulation and access for emergency vehicles; and
5. The project has been conditioned to ensure compliance with the findings and the intent of LEMC Section 17.148.030.D and to ensure that an adequate parking management plan will be implemented to ensure adequate parking spaces will be provided per code requirements should demand for parking increase on site (COA Nos. 13, 14, and 15).

### **Environmental Determination**

The proposed project is exempt from the California Environmental Quality Act (Cal. Pub. Res. Code §§21000 et seq.: "CEQA") and the CEQA Guidelines (14 C.C.R. §§ 15000 et seq.) pursuant to CEQA Guidelines Section 15301 (Class 1 Existing Facilities). Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no

expansion of use beyond that existing at the time of the lead agency's determination. The project proposes to remodel an existing 13,837 sq. ft. two-story commercial building including a 402 sq. ft. reduction and exterior modifications. The project also proposes improvements to the existing 11,959 sq. ft. one-story commercial building fascia.

### MSHCP Consistency

The proposed project is consistent with the Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP). The project site is completely disturbed and is developed with an existing commercial center. The subject property is not located in an MSHCP criteria cell and is not subject to the City's LEAP and the Western Riverside County Regional Conservation Authority's (RCA) JPR process. The project complies with all other applicable requirements of the MSHCP.

### Public Notice

Notice of the hearing for this application has been published in the Press-Enterprise newspaper and mailed to property owners within 300 feet of the subject property. As of the writing of this report, no written comments concerning this application have been received by staff.

**RESOLUTION NO. 2024-**

**A RESOLUTION OF THE PLANNING COMMISSION OF THE CITY OF LAKE ELSINORE, CALIFORNIA, APPROVING PLANNING APPLICATION NO. 2023-17 (COMMERCIAL DESIGN REVIEW NO. 2023-05) FOR EXTERIOR BUILDING FAÇADE AND RELATED SITE IMPROVEMENTS WITH A PARKING REDUCTION FOR THE EXISTING LAKEFRONT PLAZA COMMERCIAL CENTER LOCATED AT 31681 AND 31701 RIVERSIDE DRIVE (APNS: 379-381-053 AND 379-381-054)**

**Whereas**, Richard Leigh, Fluid and Fare, has filed an application with the City of Lake Elsinore (City) requesting approval of Planning Application No. 2023-17 (Commercial Design Review No. 2023-05) to make minor modifications related to existing building size and architectural elevations for the existing 13,837 sq. ft. two-story commercial building (13,435 sq. ft. after remodel). The project also proposes minor modifications related to the architectural elevations of the existing 11,989 sq. ft. one-story commercial building and other on-site modifications. The project site is located on a 1.99-acre site at 31681 and 31701 Riverside Drive (APNS: 379-381-053 and 379-381-054);

**Whereas**, Section 6.0 of the Western Riverside County Multiple Species Habitat Conservation Plan (MSHCP) requires that all discretionary projects within a MSHCP Criteria Cell undergo the Lake Elsinore Acquisition Process (LEAP) and Joint Project Review (JPR) process to analyze the scope of the proposed development and establish a building envelope that is consistent with the MSHCP criteria;

**Whereas**, Section 6.0 of the MSHCP further requires that the City adopt consistency findings demonstrating that the proposed discretionary entitlement complies with the MSHCP Criteria Cell, and the MSHCP goals and objectives;

**Whereas**, pursuant to Section 17.415.050 (Major Design Review) of the Lake Elsinore Municipal Code (LEMC), the Planning Commission (Commission) has the responsibility of reviewing and approving, conditionally approving, or denying design review applications;

**Whereas**, pursuant to Section 17.148.030.D.1. (Parking Study) of the LEMC, the Commission has the responsibility of reviewing and approving, conditionally approving, or denying parking reduction requests; and

**Whereas**, on August 20, 2024, at a duly noticed Public Hearing, the Commission has considered evidence presented by the Community Development Department and other interested parties with respect to this item.

**NOW, THEREFORE, THE PLANNING COMMISSION OF THE CITY OF LAKE ELSINORE DOES HEREBY RESOLVE, DETERMINE AND ORDER AS FOLLOWS:**

**Section 1:** The Commission has considered the project and its consistency with the MSHCP prior to adopting Findings of Consistency with the MSHCP.

**Section 2:** That in accordance with the MSHCP, the Commission makes the following findings for MSHCP consistency:

1. *The Project is not subject to the City's LEAP and the Western Riverside County Regional Conservation Authority's (RCA) JPR processes as it is not located within a Criteria Cell.*

2. *The Project is consistent with the Riparian/Riverine Areas, Vernal Pools Guidelines, and the Fuel Management Guidelines as the Project is wholly located within an existing building and does not include any earth disturbing activities therefore Sections 6.1.2 or 6.3.1 of the MSHCP are not applicable.*
3. *The project is consistent with the Protection of Narrow Endemic Plant Species Guidelines and the Additional Survey Needs and Procedures because the project is not located within any Narrow Endemic Plant Species Survey Areas or Critical Species Survey Areas.*
4. *The Project is consistent with the Fuels Management Guidelines because the Project site is not within or adjacent to any MSHCP Criteria Cell or conservation areas.*

**Section 3:** The Commission has reviewed and analyzed the proposed project pursuant to the California Planning and Zoning Laws (Cal. Gov. Code §§ 59000 et seq.), the Lake Elsinore General Plan (GP), and the LEMC and finds and determines that the proposed project is consistent with the requirements of California Planning and Zoning Law and with the goals and policies of the GP and the LEMC.

**Section 4:** The Commission hereby finds and determines that the project is categorically exempt from California Environmental Quality Act (Cal. Publ. Res. Code §§21000 et seq. "CEQA") and CEQA Guidelines (14. Cal. Code Regs. §§15000 et seq.), specifically pursuant to Section 15301 (Class 1 – Existing Facilities). Class 1 consists of the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment, or topographical features, involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. The project proposes to remodel an existing 13,837 sq. ft. two-story commercial building including a 402 sq. ft. reduction and exterior modifications. The project also proposes improvements to the existing 11,959 sq. ft. one-story commercial building fascia.

**Section 5:** That in accordance with Section 17.415.050.G of the LEMC, the Commission makes the following findings regarding Commercial Design Review No. 2023-04:

1. The project, as approved, will comply with the goals and objectives of the General Plan and the zoning district in which the project is located.

*The subject site has a General Plan Land Use designation of General Commercial (GC) and is located in the Lake View District which allows retail, services, restaurants, professional and administrative offices, hotels, and motels, mixed-use projects, public and quasi-public uses, and similar and compatible uses with a maximum 0.40 floor area ratio (FAR). The project's proposed changes in uses will continue to be consistent with the intent of the GC Land Use designation as well as the Lake View District Plan. The proposed project improvements do not involve an expansion in square footage that would increase the FAR. Furthermore, the project is consistent with the goal of General Plan Land Use Policy 1.3 since it proposes to establish new sit-down restaurant tenant spaces. Therefore, the Project is consistent with the General Plan.*

*The proposed project also complies with the intent of the C-2 zoning district because the proposed change in uses is permitted in the zone and the remodeling will help attract new businesses including restaurants to continue serving the residents and visitors of the City.*

2. The Project complies with the design directives contained in the LEMC and all applicable provisions of the LEMC.

*The project is appropriate to the site and surrounding developments because the proposed new uses are compatible with the existing neighboring businesses which also include a variety of retail, commercial, and restaurants. The architectural design of the proposed buildings conforms to the Nonresidential Development Standards (Chapter 17.112) of the LEMC because it will modernize the Lakefront Plaza with a new improved façade including a new exterior color palette. Enhanced onsite landscaping has been provided thereby creating interest and varying vistas for the a pedestrian experience along abutting streets. The architecture has been designed to enhance the surrounding area. In addition, the project has been designed to ensure safe and efficient circulation is provided onsite.*

3. Conditions and safeguards pursuant to Section 17.415.050.G.3 of the LEMC, including guarantees and evidence of compliance with conditions, have been incorporated into the approval of the Project to ensure development of the property in accordance with the objectives of Section 17.415.050.

*The Design Review Committee, including Staff from Planning, Building and Safety, Fire, and Engineering Departments and the Elsinore Valley Municipal Water District, has reviewed the project and have included recommended conditions of approval to ensure compliance with adopted plans, policies, and regulations. Furthermore, the project will be required to demonstrate compliance with the conditions of approval and other applicable design and development standard requirements pursuant to LEMC Section 17.415.050 during the plan check review process prior to the issuance of permit(s) for construction.*

**Section 6:** That in accordance with Section 17.148.030.D of the LEMC, the Commission makes the following findings regarding Commercial Design Review No. 2023-05 for the parking reduction:

1. A parking study prepared by a traffic and parking consultant was submitted for this project and includes a shared parking analysis based on the mix of current and proposed land uses within the existing commercial plaza;
2. The shared parking analysis includes a Time-of-Day Factor Model for the proposed project based on the land uses and square footages as identified on the site plan. This analysis is based on the principle that different land uses have different peak periods of parking demand throughout a given day (e.g., restaurants have peak demands during typical lunch and dinner times). Given the proposed mix of uses and their varying peak parking demand times, the shared parking analysis determined that they may be able to share a single pool of parking;
3. Furthermore, based on the results of the shared parking analysis, the proposed parking supply of 135 parking spaces including six (6) accessible spaces is projected to adequately accommodate peak parking demand at 12:00 P.M. on weekdays and 2:00 P.M. on weekends at the project site with a surplus of three (3) parking spaces;

4. Reduced parking will not affect the health, safety and welfare of the public because the parking study demonstrated a sufficient number of parking spaces would be provided. Furthermore, the parking lot is designed to allow efficient on-site circulation and access for emergency vehicles; and
5. The project has been conditioned to ensure compliance with the findings and the intent of LEMC Section 17.148.030.D and to ensure that an adequate parking management plan will be implemented to ensure adequate parking spaces will be provided per code requirements should demand for parking increase on site (COA Nos. 13, 14 and 15).

**Section 7:** Based upon the evidence presented, both written and testimonial, and the above findings, the Commission hereby finds that the project is consistent with the MSHCP.

**Section 8:** Based upon the evidence presented, the above findings, and the Conditions of Approval imposed upon the project, the Commission hereby approves Commercial Design Review No. 2023-05.

**Section 9:** This Resolution shall take effect immediately upon its adoption.

**Passed and Adopted** on this 20<sup>th</sup> day of August, 2024.

## CONDITIONS OF APPROVAL

**PROJECT:** PA 2023-17/CDR 2023-05  
**PROJECT NAME:** Lakefront Plaza Revitalization  
**PROJECT LOCATION:** APNs: 379-381-053 and 379-381-054  
**APPROVAL DATE:**  
**EFFECTIVE DATE:**  
**EXPIRATION DATE:**

### GENERAL

1. Planning Application No. 2023-17 (Commercial Design Review No. 2023-05) to make minor modifications related to existing building size and architectural elevations for the existing 13,837 sq. ft. two-story commercial building (13,435 sq. ft. after remodel). The project also proposes minor modifications related to the architectural elevations of the existing 11,989 sq. ft. one-story commercial building and other on-site modifications. The project site is an existing 1.99-acre commercial center (Lakefront Plaza) located along Riverside Drive between Joy Street and Lincoln Street at 31681 and 31701 Riverside Drive (APNs: 379-381-053 and 379-381-054).
2. The applicant shall defend (with counsel acceptable to the City), indemnify, and hold harmless the City, its Officials, Officers, Employees, Agents, and its Consultants (Indemnitees) from any claim, action, or proceeding against the Indemnitees to attack, set aside, void, or annul an approval of the City, its advisory agencies, appeal boards, or legislative body concerning approval, implementation and construction of and CDR 2023-05 which action is sought within the time period provided for in California Government Code Sections 65009 and/or 66499.37, and Public Resources Code Section 21167, including the approval, extension or modification of CDR 2023-05 or any of the proceedings, acts or determinations taken, done, or made prior to the decision, or to determine the reasonableness, legality or validity of any condition attached thereto. The Applicant's indemnification is intended to include, but not be limited to, damages, fees and/or costs awarded against or incurred by Indemnitees and costs of suit, claim or litigation, including without limitation attorneys' fees, penalties and other costs, liabilities and expenses incurred by Indemnitees in connection with such proceeding. The City will promptly notify the applicant of any such claim, action, or proceeding against the City. If the project is challenged in court, the City and the applicant shall enter into formal defense and indemnity agreement, consistent with this condition.
3. Within 30 days of project approval, the applicant shall sign and complete an "Acknowledgment of Conditions" and shall return the executed original to the Community Development Department for inclusion in the case records.

### PLANNING DIVISION

4. Commercial Design Review No. 2023-05 shall lapse and become void two years following the date on which the design review became effective, unless one of the following: (1) prior to the expiration of two years, a building permit related to the design review is issued and construction commenced and diligently pursued toward completion; or (2) prior to the expiration of two years, the applicant has applied for and has been granted an extension of the design review approval pursuant to subsections (1) and (2) of Lake Elsinore Municipal Code (LEMC) Section 17.415.050.I.1. Notwithstanding conditions to the contrary, a design

review granted pursuant to LEMC Section 17.415.050.I.2 shall run with the land for this two-year period, subject to any approved extensions, and shall continue to be valid upon a change of ownership of the site, which was the subject of the design review application.

5. All Conditions of Approval shall be reproduced on page one of building plans prior to their acceptance by the Building and Safety Division, Community Development Department. All Conditions of Approval shall be met prior to the issuance of a Certificate of Occupancy.
6. All future development proposals shall be reviewed by the City on a project-by-project basis. If determined necessary by the Community Development Director or designee, additional environmental analysis will be required.
7. Any proposed minor revisions to approved plans shall be reviewed and approved by the Community Development Director or designee. Any proposed substantial revisions to the approved plans shall be reviewed according to the provisions of the Municipal Code in a similar manner as a new application. Grading plan revisions shall be reviewed by the City Engineer.
8. Provisions of the City's Noise Ordinance (LEMC Chapter 17.176) shall be satisfied during all site preparation and construction activity. Site preparation activity and construction shall not commence before 7:00 AM and shall cease no later than 5:00 PM, Monday through Friday. Only finish work and similar interior construction may be conducted on Saturdays and may commence no earlier than 8:00 am and shall cease no later than 4:00 p.m. Construction activity shall not take place on Sunday, or any Legal Holidays.
9. No individual signs are approved as part of this approval. The applicant or designee shall submit an application for a sign permit, pay appropriate fees and receive approval from the Community Development Department for any sign(s) installed at the project site.
10. Graffiti shall be removed within 24 hours.
11. All materials and colors depicted on the approved plans shall be used. If the applicant wishes to modify any of the approved materials or colors depicted on the plans, the applicant shall submit a proposal setting forth the modifications for review by the Community Development Director or his designee.
12. The entire site shall be kept free from trash and debris at all times and in no event shall trash and debris remain for more than 24 hours.
13. In accordance with Section 17.148.030.D of the LEMC and the Shared Parking Analysis provided in the Parking Analysis, prepared by K2 Traffic Engineering, Inc., dated 05-23-2024, the project shall provide 135 parking spaces including six ADA accessible spaces. Per Section 17.148.030.D.1.i of the LEMC, the project shall provide additional parking spaces should the demand for parking increase on site. Where additional parking cannot be accommodated, the applicant shall be responsible for instituting parking solutions including but not limited to offering valet parking or securing off-site parking at adjacent lots via reciprocal access agreement(s) and/or shared parking agreement(s).
14. Prior to the issuance of a building permit, the applicant shall provide a parking management plan for staff's review and approval.

15. In accordance with Section 17.148.030.D.2 of the LEMC, the parking determination granting reduced parking requirements may be revoked at any time if there is evidence of insufficient on-site parking, i.e., "spill over" parking onto a public right-of-way or onto an adjacent lot(s). Upon revocation of a parking determination approval, the applicant will be required to submit a new application for a parking determination or provide on-site parking per code requirements.
16. Proposed uses shall be limited to those identified in the floor plans for Buildings 1 and 2 (Sheets A1.0, B1.0, and B1.1) dated 08-08-23 (revised 04-17-24). In the event the applicant proposes to modify the floor plan, the modification shall be subject to review by the Community Development Director or his designee. Uses that require a Conditional Use Permit are subject to review by the Planning Commission.
17. If any of the conditions of approval set forth herein fail to occur, or if they are, by their terms, to be implemented and maintained over time, if any of such conditions fail to be so implemented and maintained according to their terms, the City shall have the right to revoke or modify all approvals herein granted, deny or further condition issuance of all future building permits, deny revoke, or further condition all certificates of occupancy issued under the authority of approvals herein granted; record a notice of violation on the property title; institute and prosecute litigation to compel their compliance with said conditions or seek damages for their violation.

#### **Prior to Issuance of Grading Permits/Building Permits**

18. All roof mounted or ground support air conditioning units or other mechanical equipment incidental to development shall be architecturally screened or shielded by landscaping so that they are not visible from neighboring property or public streets. Any roof mounted central swamp coolers shall also be screened, and the Community Development Director, prior to issuance of building permit shall approve screening plan.
19. The project shall meet all requirements of the Elsinore Valley Municipal Water District (EVMWD). The applicant shall submit water and sewer plans to the EVMWD and shall incorporate all district conditions and standards.
20. The property address (in numerals at least six inches high) shall be displayed near the entrance and be easily visible from the front of the subject property and public right-of-way.
21. The applicant shall construct trash enclosure(s) to match the colors, materials and design of the project architecture.
22. Prior to issuance of a building permit, the Final Landscaping / Irrigation Detail Plans shall be submitted to the Community Development Department with appropriate fees, for review and approval by the Community Development Director or designee.
  - a. All planting areas shall have permanent and automatic sprinkler system with 50% plant coverage using a drip irrigation method.

- b. All planting areas shall be separated from paved areas with a six inch (6") high and six inch (6") wide concrete curb. Runoff shall be allowed from paved areas into landscape areas.
  - c. Planting within fifteen feet (15') of ingress/egress points shall be no higher than twenty-four inches (24").
  - d. Landscape planters shall be planted with an appropriate parking lot shade tree pursuant to the LEMC and Landscape Design Guidelines.
  - e. No required tree planting bed shall be less than 5 feet wide.
  - f. Root barriers shall be installed for all trees planted within 10 feet of hardscape areas to include sidewalks.
  - g. Any transformers and mechanical or electrical equipment shall be indicated on landscape plan and screened as part of the landscaping plan.
  - h. The landscape plan shall provide for ground cover, shrubs, and trees and meet all requirements of the City's adopted Landscape Guidelines.
  - i. All landscaping and irrigation shall be installed within affected portion of any phase at the time a Certificate of Occupancy is requested for any building.
  - j. Final landscape plan must be consistent with approved site plan.
  - k. Final landscape plans to include planting and irrigation details and shall blend in with the existing shopping center.
  - l. Final landscape plans shall include drought tolerant planting consistent with Elsinore Valley Municipal Water District standards subject to plan check and approval by the City's landscape plan check consultant.
  - m. No turf shall be permitted pursuant to LEMC Chapter 19.08: Water Efficient Landscape Requirements.
23. Landscaping installed for the project shall be continuously maintained to the reasonable satisfaction of the Community Development Director. If it is determined that the landscaping is not being maintained, the Director of Community Development shall have the authority to require the property owner to bring the landscaping into conformance with the approved landscape plan. The continued maintenance of all landscaped areas shall be the responsibility of the developer or any successors in interest.
24. The proposed location of on-site construction trailers shall be approved by the Community Development Director or designee. A cash bond of \$1,000 shall be required for any construction trailers placed on the site and used during construction. Bonds will be released after removal of trailers and restoration of the site to an acceptable state, subject to approval of the Community Development Director or designee. Such trailer(s) shall be fully on private property and outside the public right of way.
25. Prior to building permit issuance, the applicant shall initiate and complete Covenants, Conditions and Restrictions (CC&Rs) which shall be approved by the City. All CC&R documents that address including, but not limited to, reciprocal easements, shall be submitted for review and approval by City Planning, Engineering and the City Attorney and upon City approval shall be recorded. Such documents shall include Covenants, Conditions and Restrictions (CC&Rs).
- All landscaping, all drainage basins, and common areas including but not limited to parking areas and drive aisles, shall be maintained in accordance with the CC&Rs.
  - Provisions to restrict parking upon other than approved and developed parking

spaces shall be written into the CC&Rs for the project.

## **BUILDING DIVISION**

### **General Conditions**

26. Final Building and Safety Conditions. Final Building and Safety Conditions will be addressed when building construction plans are submitted to Building and Safety for review. These conditions will be based on occupancy, use, the California Building Code (CBC), and related codes which are enforced at the time of building plan submittal.
27. Compliance with Code. All design components shall comply with applicable provisions of the 2022 edition of the California Building, Plumbing and Mechanical Codes: 2022 California Electrical Code; California Administrative Code, 2022 California Energy Codes, 2022 California Green Building Standards, California Title 24 Disabled Access Regulations, and Lake Elsinore Municipal Code.
28. Green Measures. The application shall provide 10% voluntary green measures on the project, as stipulated by the 2022 California Green Building Standards.
29. Disabled Access. Applicant shall provide details of all applicable disabled access provisions and building setbacks on plans to include:
  - a. All ground floor units to be adaptable.
  - b. Disabled access from the public way to the entrance of the building.
  - c. Van accessible parking located as close as possible to the main entry.
  - d. Path of accessibility from parking to furthest point of common area.
  - e. Path of travel from public right-of-way to all public areas on site, such as club house, trash enclosure, tot lots and picnic areas.
30. Street Addressing. Applicant must obtain street addressing for all proposed buildings by requesting street addressing and submitting a site plan for commercial or multi-family residential projects or a recorded final map for single-family residential projects. It takes 10 days to issue address and notify other agencies. Please contact Sonia Salazar at [ssalazar@lake-elsinore.org](mailto:ssalazar@lake-elsinore.org) or 951-674-3124 X 277.
31. Clearance from LEUSD. A receipt or clearance letter from the Lake Elsinore School District shall be submitted to the Building and Safety Department to ensure the payment or exemption from School Mitigation Fees.
32. Obtain Approvals Prior to Construction. Applicant must obtain all building plans and permit approvals prior to commencement of any construction work.
33. Obtaining Separate Approvals and Permits. Trash enclosures, patio covers, light standards, and any block walls will require separate approvals and permits.
34. Sewer and Water Plan Approvals. On-site sewer and water plans will require separate approvals and permits. Septic systems will need to be approved from Riverside County Environmental Health Department before permit issuance.

35. House Electrical Meter. Applicant shall provide a house electrical meter to provide power for the operation of exterior lighting, irrigation pedestals and fire alarm systems for each building on the site. Developments with single user buildings shall clearly show on the plans how the operation of exterior lighting and fire alarm systems when a house meter is not specifically proposed.

#### **At Plan Review Submittal**

36. Submitting Plans and Calculations. Applicant must submit to Building and Safety four (4) complete sets of plans and two (2) sets of supporting calculations for review and approval including:
- An electrical plan including load calculations and panel schedule, plumbing schematic, and mechanical plan applicable to scope of work.
  - A precise grading plan to verify accessibility for the persons with disabilities.
  - Truss calculations that have been stamped by the engineer of record of the building and the truss manufacturer engineer.

#### **Prior to Issuance of Grading Permit(s)**

37. Onsite Water and Sewer Plans. Onsite water and sewer plans, submitted separately from the building plans, shall be submitted to Building and Safety for review and approval.
38. Demolition Permits. A demolition permit shall be obtained if there is an existing structure to be removed as part of the project. Asbestos report and lead base paint reports are required before demo permit will be issued.

#### **Prior to Issuance of Building Permit(s)**

39. Plans Require Stamp of Registered Professional. Applicant shall provide appropriate stamp of a registered professional with original signature on the plans. Provide C.D. of approved plans to the Building Division.

#### **Prior to Beginning of Construction**

40. Pre-Construction Meeting. A pre-construction meeting is required with the building inspector prior to the start of the building construction.

### **ENGINEERING DEPARTMENT**

#### **GENERAL**

41. All new submittals for plan check or permit shall be made using the City's online Citizen Self-Service Portal (CSSP).
42. All engineering plans shall be prepared by a licensed Civil Engineer using the City's standard title block.

43. All landscaping within the public right-of-way shall be maintained by the property owner, owner's association, firms contracted by the property owner's association, or another maintenance entity approved by the City Council.
44. In accordance with the City's Franchise Agreement for waste disposal and recycling, the applicant shall be required to contract with CR&R, Inc. for removal and disposal of all waste material, debris, vegetation and other rubbish generated both during cleaning, demolition, clear and grubbing or all other phases of construction and during occupancy.
45. The site will accommodate all construction activity, building activity, vehicles, etc. No staging on public streets, or private property belonging to others shall be conducted without the written permission of the property owner.
46. Minimum good housekeeping and erosion and sediment control Best Management Practices (BMPs) shall be implemented.

### **FEES**

47. Applicant shall pay all applicable permit application and Engineering assessed fees, including without limitation plan check, at the prevalent rate at time of payment in full.
48. Applicant shall pay all applicable Mitigation and Development Impact Fees at the prevalent rate at time of payment in full. Fees are subject to change.

### **LAND DIVISION**

49. Applicant shall submit and complete plan check review and approval approval a lot line adjustment for APN 379-381-054. The lot line adjustment shall be recorded prior to issuance of certificate of occupancy.
50. Applicant shall dedicate, in form of irrevocable offer, the right-of-way of Riverside Drive adjacent to the property for a total right-of-way of 60 feet from centerline to the project property line. Riverside Drive is classified as an Urban Arterial Highway in the City's General Plan, where full-width is 120 feet and curb-to-curb width is 96 feet.

### **STORM WATER MANAGEMENT / POLLUTION PREVENTION / NPDES**

51. The project is responsible for complying with the Santa Ana Region National Pollutant Discharge Elimination System (NPDES) Permits as warranted based on the nature of development and/or activity.

### **IMPROVEMENTS**

52. Project will be responsible for the following improvements:
  - Construction of commercial driveway approaches and ADA compliant curb ramps per California Department of Transportation and/or City of Lake Elsinore approved standards or a modified acceptable version to California Department of Transportation and City Engineer. Sidewalk construction incidental to driveway approach improvements shall be included.

53. Sight distance into and out at each project driveway shall comply with City Standard 125/126 or Caltrans standards. Project shall ensure above ground facilities are installed outside the line of sight of drivers.
54. Roof drains shall not be allowed to outlet directly through coring in the street curb. Roofs should drain to a landscaped area.
55. The site shall be planned and developed to keep surface water from entering buildings (California Green Building Standards Code 4.106.3).
56. A California licensed Civil Engineer shall prepare the improvement plans required for this project. Improvements shall be designed and constructed to City Standards and Codes (LEMC 12.04 and 16.34).

### **Permitting/Construction**

57. An encroachment permit shall be obtained prior to any work on City right-of-way. The developer shall submit the permit application, required fees, and executed agreements, security and other required documentation prior to issuance.
  - A preconstruction meeting with the City Engineering Inspector (Engineering Department) is required prior to commencement of any public right-of-way improvement construction activities.
58. An Encroachment Permit from the California Department of Transportation shall be obtained prior to any work within California Department of Transportation right of way. Permit shall be obtained prior to issuance of City permits.
59. All compaction reports shall be submitted to the Engineering Department before final inspection of public works improvements will be scheduled and approved.
60. The project site shall implement full trash capture methods/devices approved by the Region Water Quality Control Board. This shall include installation of connector pipe screens on all onsite and offsite catch basins to which the project discharges.
61. All restaurants and commercial food handling facilities must provide an area for the washing/steam cleaning of equipment and accessories. The area must be self-contained, equipped with a grease trap, and properly connected to a sanitary sewer. If the wash area is located outdoors, it must be covered, paved have secondary containment, and be connected to the sanitary sewer or other appropriately permitted disposal facility. Plan Requirements: The Owner/Applicant shall incorporate these food facility requirements into project design and depict on plans, including detail plans as needed.

### **PRIOR TO BUILDING PERMIT**

62. Any dedications shall be recorded with the recorded copy provided to the City prior to issuance of the building permit
63. All public improvement plans shall be completed and approved by the City Engineer.

**PRIOR TO OCCUPANCY / FINAL APPROVAL**

64. All Required lot line adjustment(s) shall be recorded with the recorded copy provided to the City prior to issuance of first occupancy.
65. All public improvements shall be constructed in accordance with the approved plans or as a condition of this development to the satisfaction of the City Engineer prior to issuance of first occupancy.
66. Proof of acceptance of maintenance responsibility of slopes, open spaces, landscape areas, and drainage facilities shall be provided.
67. In the event of the damage to City roads from hauling or other construction related activity, applicant shall pay full cost of restoring public roads to the baseline condition.
68. Applicant shall pay all outstanding applicable processing and development fees prior to occupancy and/or final approval.
69. Applicant shall submit documentation pursuant to City's *Security Release* handout.

**CITY OF LAKE ELSINORE FIRE MARSHAL**

70. The applicant/operator shall comply with all requirements of the Riverside County Fire Department Lake Elsinore Office of the Fire Marshal. Questions should be directed to the Riverside County Fire Department, Lake Elsinore Office of the Fire Marshal at 130 S. Main St., Lake Elsinore, CA 92530. Phone: (951) 671-3124 Ext. 225.
71. Prior to issuance of building permits, the applicant/developer shall provide the Office of the Fire Marshal with an approved site plan for Fire Lanes and Signage. (CFC 501.3)
72. Fire flow shall be determined by the building of the single largest square footage. The required fire flow is estimated to be 1500 GPM at 20 PSI for a 2-hour duration, per the 2022 California Fire Code.
73. Each parcel shall maintain independent access to the circulating roadway. Prior to first occupancy, reciprocal access agreements or dedicated access shall be established.
74. Construction Permits Fire Department Review: Submittal of construction plans to the Office of the Fire Marshal for development, construction, installation, and operational use permitting will be required. Final fire and life safety conditions will be addressed when the Office of the Fire Marshal reviews these plans. These conditions will be based on occupancy, use, California Building Code (CBC), California Fire Code, and related codes, which are in effect at the time of building plan submittal.

**DEPARTMENT OF ADMINISTRATIVE SERVICES**

**Annex into the City of Lake Elsinore Community Facilities District No. 2015-2 (Maintenance Services)**

75. Prior to issuance of a grading permit, the applicant shall submit an application to the Department of Administrative Services to initiate the annexation process into the Community

Facilities District No. 2015-2 (Maintenance Services) or current Community Facilities District in place at the time of annexation to fund the on-going operation and maintenance of the public right-of-way landscaped areas and neighborhood parks to be maintained by the City and for street lights in the public right-of-way for which the City will pay for electricity and a maintenance fee to Southern California Edison, including parkways, street maintenance, open space and public storm drains constructed within the development and federal NPDES requirements to offset the annual negative fiscal impacts of the project. The annexation process shall be completed prior to issuance of the first certificate of occupancy for the project. Alternatively, the applicant may propose alternative financing mechanisms to fund the annual negative fiscal impacts of the project with respect to Maintenance Services. Applicant shall make a non-refundable deposit of \$15,000 or at the current rate in place at the time of annexation toward the cost of annexation, formation or other mitigation process, as applicable.

I hereby state that I acknowledge receipt of the approved Conditions of Approval for the above named project and do hereby agree to accept and abide by all Conditions of Approval as approved by the Planning Commission of the City of Lake Elsinore on \_\_\_\_\_. I also acknowledge that all Conditions shall be met as indicated.

**Re: Parking Analysis- Lake Elsinore Plaza Renovation  
31701 & 31681 Riverside Drive, Lake Elsinore**

Dear Gregory,

Per your request, we have prepared this parking analysis and for the renovation project of Lake Elsinore Plaza. This letter presents out methodologies and findings.

**PROJECT INFORMATION**

Lake Elsinore Plaza is an existing commercial center located at 31701 & 31681 Riverside Drive in the City of Lake Elsinore. The site consists of two existing commercial buildings: 11,959 sq. ft. in Building One and 13,435 sq. ft. in Building Two. Upon project completion, the site will provide a total of 135 spaces, including six (6) accessible spaces. The proposed site plan is shown in **Exhibit 1**.

This renovation and tenant improvement project includes aesthetics improvements and functionality adjustments for both buildings. The proposed floor plan for Building One is shown in **Exhibit 2**. The proposed floor plan of Building Two for the ground and second floors are shown in **Exhibits 3 and 4**, respectively.

According to the City of Lake Elsinore, the future widening of Riverside Drive may result in a loss of 13 parking spaces due to a required dedication of 10-foot Right-of-Way along Riverside Drive to achieve the ultimate half-street width of 60 feet. Such future widening is not a part of this development and does not concern this parking analysis. Nonetheless, the future dedication of Right-of-Way is illustrated in **Exhibit 5**.

***K2 Traffic Engineering, Inc.***

## **EXISTING AND FUTURE TENANTS**

Rhema Word Ministries in Suite A and Encouragement Church in Suites G/H will move out and not renew their leases. All other existing tenants are expected to remain in place. The complete list of existing tenants and vacant units is shown in **Exhibit 6**.

Upon project completion, Suite A will be repurposed for retail use, and Suite G/H will be repurposed for restaurant use. Suite P is currently a vacant office on the second floor of Building Two will be split into two units for restaurant use (1,917 sq. ft. in Suite P) and office use (1,295 sq. ft. in Suite Q). The list of future tenants and proposed uses can be found in **Exhibit 7**.

## **PARKING CALCULATION**

According to Lake Elsinore Municipal Code, the parking requirement for commercial uses including office and retail is one parking space for 250 square feet of gross floor area. The parking requirement for restaurant and other eating, drinking, and food establishments is one space for each 45 square feet of customer area, plus one space for each 200 square feet of non-customer area. Parking calculation of existing and future tenants can be found in **Exhibits 6 and 7**, respectively.

## **TIME-OF-DAY FACTOR**

The study applied shared parking methodology with time-of-day factors derived from the published data of “*Shared Parking, Third Edition*” by Urban Land Institute (ULI). Time-of-day factors are applied future tenants and vacant units to determine the hourly parking demands for weekday and weekend, as shown in **Exhibit 8**. The projected peak parking utilization of future tenants and vacant units is 61 spaces on weekday at 12:00 PM and 58 spaces on weekends at 2:00 PM.

## PARKING SURVEY

In order to observe actual parking usage by existing tenants, the study conducted field observations at the subject commercial center on Thursday, December 12, 2023 and Saturday, December 14, 2023. Parked vehicles were counted hourly during the business hours from 11 AM to 7 PM. It is noted that Encouragement Church (Suite G/H) and Rhema Word Ministries (Suite A) are not open at the time of survey.

Based on our observations, parking usage in the weekends is apparently higher than the typical weekday. Peak parking took place on weekdays at 7 PM with 32 spaces occupied, and Saturday at 6 PM with 75 spaces occupied among the capacity of 135 spaces. The peak parking usage was equivalent to 56% of the parking capacity. Complete survey can be found in **Appendix A**.

## EMPIRICAL PARKING DEMAND

The empirical parking demands of existing and future tenants, including vacant units, for weekday and weekend are illustrated in **Exhibits 9 & 10**, respectively. The empirical peak parking demand at the subject plaza is anticipated to be 83 spaces on weekday at 7:00 PM, and 132 spaces on Saturday at 6:00 PM. As a worst case scenario, the project site is anticipated to have an empirical parking surplus of three (3) spaces as shown in **Table 1**.

**Table 1. Empirical Parking Demand**

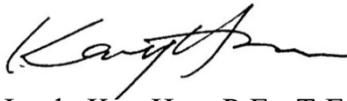

Peak Parking Usage	Parking Demand	Parking Percentage	Note
Existing Tenants	75	56%	Peak parking at 6 PM Saturday
Additional Demand	57	42%	Restaurant, Retail, and Office Uses by future tenants and vacant units
Overall Empirical Demand	<b>132</b>	98%	
Parking Capacity	<b>135</b>	100%	
<b>Parking Surplus</b>	<b>+ 3</b>		

## PARKING SUFFICIENCY

Upon project completion, the site will provide a total of 135 parking spaces, including six (6) ADA accessible spaces, sufficient to accommodate the empirical parking demand of all uses with a parking surplus of three spaces. The project is not expected to result in parking overflow onto public streets.

Regards,

**APPENDIX A. PARKING SURVEY MAP**

## NOTICE OF PUBLIC HEARING

**NOTICE IS HEREBY GIVEN** that the Planning Commission of the City of Lake Elsinore, California, will hold a Public Hearing on August 20, 2024, at the Lake Elsinore Cultural Center, 183 North Main Street, Lake Elsinore, California, 92530, at 6:00 p.m., or as soon thereafter as the matter may be heard, to consider the following:

**Planning Application No. 2023-17 (Lakefront Plaza Revitalization):** A request by Richard Leigh, Fluid and Fare, requesting approval of Commercial Design Review (CDR No. 2023-05) for exterior building and related site improvements for the existing Lakefront Plaza commercial center. Proposed improvements include a new façade for the existing Lake buildings, new landscaping, and a small reduction in square footage. No new square footage or new buildings are proposed. The proposed request also includes a parking reduction. The project site is located on an approximately 1.99-acre site within the General Commercial (C-2) District at 31681 and 31701 Riverside Drive (APNs: APNS: 379-381-053 & 379-381-054).

The proposed project is exempt from California Environmental Quality Act (CEQA), pursuant to California Environmental Quality Act (Cal. Pub. Res. Code §§21000 et seq.: "CEQA") and the CEQA Guidelines (14 C.C.R. §§ 15000 et seq.) pursuant to CEQA Guidelines Section 15301 (Class 1 Existing Facilities).

**ALL INTERESTED PERSONS** are invited to submit written information, express opinions or otherwise submit written evidence by email to [jmatie@Lake-Elsinore.org](mailto:jmatie@Lake-Elsinore.org).

If you wish to legally challenge any action taken by the City on the above matter, you may be limited to raising only those issues you or someone else at the Public Hearing described in this notice, or in written correspondence delivered to the City prior to or at the Public Hearing. If you require accommodation to participate in a Public Hearing, please contact the Administrative Secretary at (951) 674-3124 ext. 297. All Agenda materials are available for review on the City's website at [www.lake-elsinore.org](http://www.lake-elsinore.org) the Friday before the Public Hearing.

**FURTHER INFORMATION** on this item may be obtained by contacting Carlos Serna, Associate Planner in the Planning Division at [cserna@lake-elsinore.org](mailto:cserna@lake-elsinore.org) or (951) 674-3124, ext. 916.

Damaris Abraham,  
Community Development Director

PROPERTY OWNERS CERTIFICATION

I, Laura Emerson, certify that on 05-24-2024  
(Print Name) (Month-day-year)

the attached property owners list was prepared by

Laura Emerson Pursuant to application

requirements furnished by the City of Lake Elsinore Planning Division. Said list is a complete and true compilation of owner of the subject property and all other property owners within **300 feet (or the 30 nearest individual property owners, whichever creates the greatest number of public notices (persons owning multiple properties shall only be counted once)** of the property involved in the application and is based upon the latest equalized assessment rolls.

I further certify that the information filed is true and correct to the best of my knowledge. I understand that incorrect or erroneous information may result in processing delays or be grounds for rejection or denial of the application.
