To whom it may concern:

I am writing regarding Mortons Pest Control. Mortons Pest Control has been our districts only Pest Control company for more than 20 years. We have had nothing but on time scheduling and performance of the regular maintenance/service as well as emergency services.

Mortons has always been on time, communicated above and beyond in expectations, and provided excellent customer service on all levels.

I fully recommend Mortons Pest Control who has provided more than two decades of service to our campuses and community with impeccable care and professionalism.

Please feel free to contact me at 951-200-0842 should you have any questions.

Sincerely,
