

ROBBINS PEST MANAGEMENT INC

16514 MOUNTAIN STREET
LAKE ELSINORE, CA. 92530

City of Lake Elsinore
130 S. Main Street
Lake Elsinore, Ca 92530

1/17/2023

Thank you for giving Robbins Pest Management Inc. the opportunity to submit a bid for pest control services for the below City buildings and City Parks

The monthly service fee for each of the below listed buildings is \$30.00 each, for interior and exterior treatments.

Public Works (Offices and Warehouse)
Tiny Tots
Cultural Center
Community Center
City Hall Annex

Historical Society
Centennial Station
City Hall
Senior Center
City Park Restrooms

The monthly service is performed on Saturdays, for the employees safety, and include any additional services during the month if needed. The service is for general pest control (ants, spiders, earwigs, mice, rats etc.).

The monthly service fee for each fire station (Mc Vicker, Rosetta Canyon and Canyon Hills) is \$35.00 and cover the same general pests.

Pest control services for the La Laguna Campground for gophers and squirrels will be performed on a bi-weekly basis for \$300.00 per visit. The service covers the entire campground and will prevent the massive destruction seen in 2016.

All of the above services will be performed on a same day/next day basis.

Pests creating a public safety issue (bees, wasps, fleas, fire ants, squirrels etc.) will be treated within one hour of notice, seven days a week.

Services at the City Parks will be priced at \$65.00 trip charge, plus \$65.00 per hour. We can supply the City for monthly service estimates for each park but recommend a "per call" basis since some parks may not need attention each month.

We have been located in Lake Elsinore for nineteen years and are bonded and insured. We also hold a General Pest Control License, an Agricultural QAL license and the required restricted materials permits.

Monthly pest control service for the Anchor is \$175 for all the buildings on the property on the outside. Each of the 17 units would be \$10 each to spray the inside on an as needed basis.

Please advise me should require any additional information.

Regards,
