

REPORT TO CITY COUNCIL

To: Honorable Mayor and Members of the City Council

From: Jason Simpson, City Manager

Prepared by: Lonny Olson, Fire Chief

Date: April 11, 2023

Subject: Purchase of New Quint Fire Truck for Fire Station #97

Recommendation

Approve the purchase of a new Quint 75' Aerial Ladder fire apparatus with a Waterous Fire Pump per attached specifications for \$1,600,000 from the County of Riverside plus 20% contingency for a total of \$1,920,000.

Background

On March 26, 2013, the City of Lake Elsinore purchased its first Quint Fire Truck for the Rosetta Canyon Fire Station #97. The original purchase included a one-time contribution from the County of Riverside for \$300,000. Quint #97 was placed in service in 2014 and has approximately 107,500 miles.

Discussion

The Lake Elsinore Fire Department requires a new Quint Ladder Truck, and in anticipation of the purchase, staff will need to set aside Measure Z funding to pay for the apparatus. The County of Riverside Life Cycle Analysis model shows this apparatus should be replaced at 15 years of service or 120,000 miles, whichever comes first. The current build-out time for a new fire truck is approximately two to three years. This purchase will also expand the life cycle use of the current Quint as a reserve.

Fiscal Impact

When the fire apparatus is delivered, funds will be allocated from Measure Z.
